

# "You Can Make It" Supplies

**Student Booklet:** Our updated student booklets supplement your 'Learn to Sew' lessons. ALL major skills necessary are contained in these student booklets. Each Levels' booklet is a great reference for when you are sitting at the machine. They are very detailed and contain colorful graphics for easy understanding with step by step directions, reminding you of the most widely used skills that are taught and many great hints. They are supplied three hole punched for easy storage in our student binder. This IS a real necessity to accompany your lessons.

**Student Patches:** Have you finished your 'Learn to Sew' Level garment and want your reward? Get your student patch! We even have a place for you to put them, your sewing bag. Our sewing bag concept is used as part of our program to apply additional learned skills. Your patch can be used to help separate the skills learned in each Level. Fully embroidered 3"x 3" & color coordinated for each Level. Give yourself the credit you deserve.

**Pattern Suggestions:** In each 'Learn to Sew' Level you will make a garment using commercial patterns. Do you want us to make your life really easy? Just let us know! We will tell you exactly which current patterns, from all the major pattern companies, fit a Level's requirements & are acceptable. No need to search through a pattern book to find a garment that fits a Level's requirements. A real must, especially if your access to patterns is limited.

**Student Binder:** This is a great binder to hold all your 'Learn to Sew' booklets. Your booklets are supplied three hole punched for easy entry. If kept in this binder, they will not get lost or destroyed. You will always know where they are. Our student binder also contains an alphabetized cross reference index. When you wish to review a skill, you can simply open your binder and find it easily. All of the skills that you learn will be referenced in this binder. A must item for the student who wants to apply their learned skills over and over again.

**Sewing Glossary:** Do you think experienced sewers are speaking a foreign language? This 12 page book will help you learn sewing terms. It also includes hints about the skills. Basic to advanced terms are listed. It comes bound with a front and back hard cover for years of protection. A must for all students!

**Versa Notion Bag:** Organize all your sewing supplies in this truly beautiful versatile bag. This notion bag contains a total of 12 compartments to organize threads, machine feet, needles, pins and other sewing notions. There is an outside zipper compartment which is great for storing patterns, small packets or project sheets. Inside is one large transparent pocket and two medium size transparent pockets. Also included is an additional "page" that contains 8 transparent pockets, which attaches to the inside spine with hook & loop fastener tape. Carrying handle is also attached. Measures 20"w x 12"h (open).

For more versatility, add additional **Pages** (contains 8 transparent zippered pockets) to extend and customize your storage.

**You Can Make It Pocket Sewing Kit:** This small sewing kit is just what everyone needs to keep in their purse. Its size is just 2" x 3½" and contains everything you need for those emergency repairs. Whether you have to replace a lost button, safety pin a strap, or quickly mend a seam, all of the supplies are in this sewing kit.

## Superboard-Pattern Cutting Board:

This pattern cutting board is designed to make sewing projects easy & fun. It will convert any flat surface into a work area. It opens to 40" x 72" & can fold away to 12" x 40" for easy storage. Made of durable Kraft Board, with straight & true bias guidelines, inch & metric measurements with metric equivalency chart, and scallop & circle patterns. It provides a durable cutting surface which will protect tables or floors. An excellent surface to place pins into to hold work in place. Use to easily check grainlines during layouts. Diagonal lines are spaced so bias strips can be cut in easy increments. Use to reduce or enlarge designs & to design scallops. Graph lines can also be used as reference for any work that requires even spacing such as pleats, tucks & hems. A real necessity for any sewing room.

## Chalk Hem Marker:

Now you can easily and quickly mark hems. Adjust your hem without any assistance! Great for hemming children's garments, no pinning required! Simply squeeze the handle for chalk to dispense accurate marks. Mark hems 4½" to 29½" from the floor. Chalk powder included. Constructed of durable black plastic. Fold easily for storage. Refills available.
